

The number of datapoints displayed in selected visuals

In this video, we only take a look at the limit of the datapoints displayed in a tree map. If you want to find out more about the display limits in visuals in QuickSight in general, just take a look the official documentation:

<http://docs.aws.amazon.com/quicksight/latest/user/working-with-visual-types.html>

Depending on the selected visual, the number of data points displayed is different:

Pivot table: <http://docs.aws.amazon.com/quicksight/latest/user/pivot-table.html>

Scatter plot: <http://docs.aws.amazon.com/quicksight/latest/user/scatter-plot.html>

Tree map: <http://docs.aws.amazon.com/quicksight/latest/user/tree-map.html>

Pie chart: <http://docs.aws.amazon.com/quicksight/latest/user/pie-chart.html>

Heat map: <http://docs.aws.amazon.com/quicksight/latest/user/heat-map.html>
